About This Document

The VPAT is provided in four editions based on the guidelines/standards being evaluated. The editions are WCAG, Revised 508, EN 301 549 and International that includes all of the standards.

This is the Revised Section 508 edition of the VPAT. It includes the following standards/guidelines:

- Web Content Accessibility Guidelines 2.0, at <http://www.w3.org/TR/2008/REC-WCAG20-20081211/>
- [Revised Section 508 standards](#) as published by the U.S. Access Board in the Federal Register on January 18, 2017, including the [Corrections to the ICT Final Rule](#) as published by the US Access Board in the Federal Register on January 22, 2018

If you need a different combination of standards/guidelines then use the appropriate alternate edition of the VPAT found on <https://www.itic.org/policy/accessibility/vpat>.

This document is broken into two main sections:

- Essential Requirements and Best Practices for using the VPAT® to complete an Accessibility Conformance Report
- The VPAT Template

Please carefully review the Essential Requirements and Best Practices sections before using the VPAT to create an Accessibility Conformance Report.

“Voluntary Product Accessibility Template” and “VPAT,” including the template format, are Federally Registered Service Marks of the Information Technology Industry Council (ITI). VPAT users agree not to deviate materially from the template format provided by ITI, and to use the service mark (“®”) where appropriate.
